

PRIVACY POLICY

The company reserves the right to modify the present policy in order to adapt to new legislation, jurisprudence or new practices within the industry. In the event of any changes the company will give reasonable, advance notification, via this page, of any changes to be introduced.

Certain services offered by the website may contain special conditions, with specific provision for the protection of personal details.

The personal details collected will be subject to automatic processing and will be incorporated, by the company to the corresponding automated files, the company being the holder and responsible for the file (hereafter "file")- The company will provide the user with adequate technical resources, so that they can gain sufficient advance access to this Private Policy notice or any other relevant information so they can give their consent to enable the company to proceed with the automated processing of their personal details. With the exception of the areas indicated to the contrary the answers pertaining to personal details are voluntary. Failure to answer questions will not imply a decrease in the quality or quantity of the corresponding services unless otherwise stated.

The user guarantees that the personal details given by them are truthful and that it is their responsibility to communicate any changes in their details.

The company has adopted the required legal standard of security in the protection of personal details and endeavors to install any other additional technical means and measures within its scope to avoid the loss, malicious use, alteration, unauthorized access or theft of the personal details provided to the company.

In particular the company uses SSL (Secure Socket Layers) security systems which through certificates and coding in procedures related to personal information, allows for the authentication of the websites from which personal information is obtained as in the integrity and confidentiality of your details whilst in transmission. You can confirm the use of SSL for example when you send us a contact or information request in which the page begins with "https" instead of "http" and a small padlock will appear at the bottom of your browser.

Nevertheless, the user must be aware that security measures on the internet are not impregnable.

The company may use cookies while the user browses on websites or pages. The cookies that can be used on websites and pages are only associated with the browser on a particular computer (an anonymous user) and do not give the name or surname of the user. Thanks to the cookies it is possible for the company to recognize the browsers of registered users, once they have registered for the first time, in this way the user does not have to register on every visit, but still enables them to visit the areas and services reserved exclusively for their use. The cookies used cannot read cookie files created by other suppliers. The user has the option of being able to configure their browser to notify of the reception of cookies or the installation of cookies to their hard disk. Please consult the instructions and manual for your browser to amplify this information.

In order to use the web it is not necessary for the user to allow the installation of the cookies sent by the company, in this case the user will have to register as a user for each of the services for which pre-registration is a requirement.

The cookies that are used on the website can be used by the company in the same way they can be used from the operators. Provided that the user has not activated the option to prevent the installation of cookies, the user can explore on their hard disk to obtain more detailed information about all of the servers from which cookies have been received. (Consult instructions and manual for the browser - Normally on a Windows operating system this can be found on file C:/Windows /Cookies – or the corresponding disk unit.)
